

# BREAD ALONE BREADS

(Our Kosher certificate, organic certificate and all of our nutritional facts are available on our website — [www.breadalone.com](http://www.breadalone.com))

Bread Alone has been baking with organic flours since 1983 and has always been conscious of the quality of our ingredients. With a growing concern about the source of food, we have worked to make our hand made breads and pastries contain even more locally grown products. Our flour is milled in Quebec by Lily Vallières and Robert Beauchemin of La Meunerie Milanaise, who have been producing organic flours since 1977 with high standards. Many of our dairy products are from Boice Bros. Dairy in Kingston, and our eggs are from Feather Ridge Farm in Elizaville. Our butter is from Cabot Dairy in Vermont, and much of our fruit is from local orchards and fields, which we can and freeze during the summer months.
